Company Overview

GAB Climate Smart Investments Ltd is a Ghanaian climate and sustainability company founded in 2016, advancing Sustainability, Inclusion and Climate-smart solutions across agriculture, environment, and natural resource management sectors. We combine commercial farm operations, spatial intelligence, environmental consultancy, GIS and technical services, Blue Carbon climate finance, and carefully governed Human-in-the-Loop AI systems to put verified, reliable, and current data behind every decision. The company manages 1,078.11 acres (419 ha) across 4 parcels in Ghana, anchored by a 53-block production base at Aframso, Mampong.
